Subject: NorthMet Anti-deg review excerpt (to bring in mine area discussion)

Dave,

Thank you for your input on the antideg review we are working on for the NorthMet permit.

Attached is some new language (yellow highlighted) that we have inserted into the 'alternatives' section of our review write-up to address the issues you raised. Please let me know if this is not what you were thinking and/or feel free to offer edits.

I'll try giving you a call either this afternoon or Monday just to check-in. Thanks for your help with this issue!!

Richard
